

## PRODUCT ADVISORY

**Montreal, Que. December 18, 2009** - Dorel Distribution Canada (DDC) in cooperation with Transport Canada is issuing a voluntary Public Notice of the Safety1st, Eddie Bauer, Cosco and Quinny Designer 22 infant restraints manufactured from January 6, 2008 through April 6, 2009.

The infant restraint handle bolt can loosen causing the handle to fully or partially separate from the seat. This may allow the child to fall out of the seat if they are in the seat unharnessed. There have been no reported injuries. Please see remedy below.

The Designer 22 Infant Child Restraint is safe for use in a vehicle as it meets and exceeds all crash safety standards put forth by Transport Canada.

The infant restraints were sold either separately or as part of a travel system. The stroller portion of the travel system is not affected by this consumer information notice.

The models and model numbers affected are (models sold at Sears Canada Inc. are highlighted in yellow):
