Consumer Product Recalls

Recall Notice

Date

January 17, 2011

Product Name

AirZone and Variflex Trampolines

Full Product Description

This recall involves AirZone and Variflex trampolines that were sold in a variety of colours. Recalled trampolines are between 3.7 and 4.3 meters (12 to 14 feet) wide and can be identified by the following model numbers, which are found on the safety label sewn to the trampoline pad cover.

Band trampoline: model number 138635

Spring trampoline: model number 137337. (Sears sold this model only)

Hazard Identified

Incorrectly assembled trampolines can allow the top rails and legs to bend or break during normal use, resulting in partial collapse of the trampoline. This poses a fall hazard to consumers.

Bravo has received 247 reports of top rails bending or breaking during normal use, with 4 reports of injuries. In Canada, Bravo is only aware of two reports of bent or broken top rails with no injuries.

Health Canada has not received any reports of incidents or injuries related to the use of these trampolines.

For some tips on using trampolines safely, see Health Canada's [Trampoline Tip Sheet](#).

Corrective Action

Consumers should immediately stop using the recalled trampolines and contact Bravo Sports for instructions on how to inspect the trampoline for top rail damage and to request revised assembly instructions. Top rails and legs damaged due to assembly errors will be replaced at no charge by Bravo Sports.

For more information, consumers may contact Bravo Sports at 1-888-405-0031 between 7:30AM and 5PM PT Monday through Friday, or visit the [firm's recall website](#).

Number Sold

Approximately 16,770 units of the recalled trampolines were sold at Canadian Tire and Sears Canada catalogue nationwide.

Time Period Sold

The recalled products were sold from January 2007 to April 2008.

Manufactured in China.
