- Dishwasher Magic helps remove mineral build-up and disinfects your dishwasher
- Helps eliminate food stains and odours.
- Removes rust and calcium build up that can clog water jets.
- Safe for all dishwasher interiors, plumbing and septic systems.
- Use Dishwasher Magic once a month to disinfect, ensure optimal cleaning and to prevent build up.
- 354 ml

\$16.99
98 02248365

Stainless Steel Dishwasher Hose – 6’ with Elbow Fitting

Most washing machine manufacturers recommend that your washer fill hoses should be changed every five years. Over the years, surge expansion weakens the rubber and may cause the hoses to burst.

Many condominium corporations have legislated use of stainless steel hoses for water liability.

\$24.99
98 02648371

98 046GLIDE-1

Appliance Mover

Glide n' Guard Floor Protectors help easily move heavy appliances away from walls for cleaning or repair, and guard against damage to expensive floors. Six interlocking polyethylene tracks with lipped edges; two of the six 3-3/4"x26" long tracks remain under the appliance feet and out of sight. When it's time to move the fridge or stove, simply interlock the other four tracks with the two already there, and slide the appliance out easily - on the tracks, not the floor, protecting it from scratches and gouges.

\$9.99
98 046ICE-AID

Ice Cube and Freezer Deodorizer

Keeps ice cubes tasting fresh. Ice Aid has a special formulation made to absorb ice cubes and freezer odours. Contains high absorbency natural activated charcoal. Lasts up to 8 months.

\$9.99
98 046FRIDGE-AID

Refrigerator Deodorizer

Fridge Aid, when placed in the FRIDGE compartment of any household refrigerator, helps remove odours by allowing the refrigerator's circulated air to flow through the louvers of the aerodynamically configured housing. Fridge Aid lasts 8-12 months.

\$12.99
98 0465303318693

Condenser Brush

- Easy to use
- Improves refrigerator efficiency
- For use with all refrigerators and freezers with accessible coils

Keeping your refrigerator's condenser coils clean is a major factor in efficiency and lasting performance. Dirty condenser coils cause the compressor to run too hot, which can damage the compressor, cause the refrigerator to run too long, and result in a no-cool situation. With the specially designed condenser brush, it's easy to give the condenser coils the necessary periodic cleaning. The brush is designed to fit into those tight spots that you can't get to with the vacuum cleaner.

\$11.99

Inside or outside storage, you can use a cover to help keep your Tractor looking like new.

Fuel Stabilizer

To use when you are storing gas over the winter to use next spring.

\$6.99
71 500100002

Snowblower Shear Bolts

Augers are secured to the auger shaft with special bolts which are designed to break if an object ie: rock, chunk of ice, etc.becomes lodged in the auger housing. Use of a harder bolt will reduce the protection provided by the shear bolt. If your shear bolt does break during operation, you will be unable to continue to use your snowblower. We suggest that you keep spare shear bolts in case they should break and you are still faced with knee-deep snow to remove. The instructions on how to replace a broken shear bolt are in your Owner's Manual.
